

# Chandana Reddy

An enthusiastic Web developer

A final year student at IIIT-Bh and a **Full Stack Developer** with a keen interest in open source development. I have experience with **MERN** stack. I am well versed with HTML , CSS , Bootstrap, React.js, Git and GitHub. I am comfortable with **JAVA**. I am passionate about coding and also have a knack for problem solving.

## EDUCATION

### Bachelor's in Technology

IIIT (International Institute of Information Technology), Bhubaneshwar

08/2019 - Present

CGPA: 7.94 CGPA

Courses

- Electronics and Telecommunication

### Higher Secondary

Sri Chaitanya Girls College IIT Academy Vishakhapatnam

2017 - 2019

Percentage: 85.2%

### High School

Delhi Public School, Rourkela

03/2015

CGPA: 10 CGPA

## WORK EXPERIENCE

### MittArv, India Software Engineering Intern

Worked as a full stack developer (Flutter and Django)

04/2022 - 07/2022

Achievements/Tasks

- Foremost task in frontend is on localization and designing the app .
- In backend, the primary goal is to ensure its security, authentication and authorization and also developing APIs.

### Mentee at Devsnest

Devsnest coding community

The community is mainly aimed at CP and Full stack web development(Reactjs, NodeJS, express, Postgresql).

Achievements/Tasks

- I have been a part of Devsnest for 6 months as a mentee and also been a Team leader for one of its teams.
- Being a part of them I learnt how to reach people when need help also when they need help. It's always been a good experience to work with a team rather than just doing everything on own like a Bat man.
- My work being in devsnest: [git repo](https://github.com/Devsnest) 📄

Contact : <https://www.devsnest.in/>

## SKILLS

Web Development

Node.js

React.js

C

MongoDb

HTML

CSS

Data Structures and Algorithms

Bootstrap

Flutter

Git

PostgreSQL

Postman

Django

Java

Javascript

## PERSONAL PROJECTS

Vastra(MongoDB, ExpressJs, ReactJs, NodeJS) 📄

- Ecommerce website for selling T-shirts with user authentication and browsing different products and adding to cart for purchase.
- Admin authentication and dashboard for creating, deleting and updating products and categories.
- Payments integration for making an order and purchasing.

Chatters (NodeJs, MongoDB, Socket.io, ExpressJs) 📄

- Its a real time chat application with rooms where multiple user can chat at the same time.
- With an integrated database to save the previous chats.

WHITEBOARD (Canvas, HTML, CSS, Javascript) 📄

- A web application where the user can draw using different colors, adjust the thickness of the pencil, erase, take notes Undo, delete and switch light / dark mode .
